APPROACH

Our approach as Atforce Security Services is to be proactive, adaptable, and client-centered. We believe that effective security requires a strategic balance of technology, highly trained personnel, and an understanding of each client's unique environment and challenges.

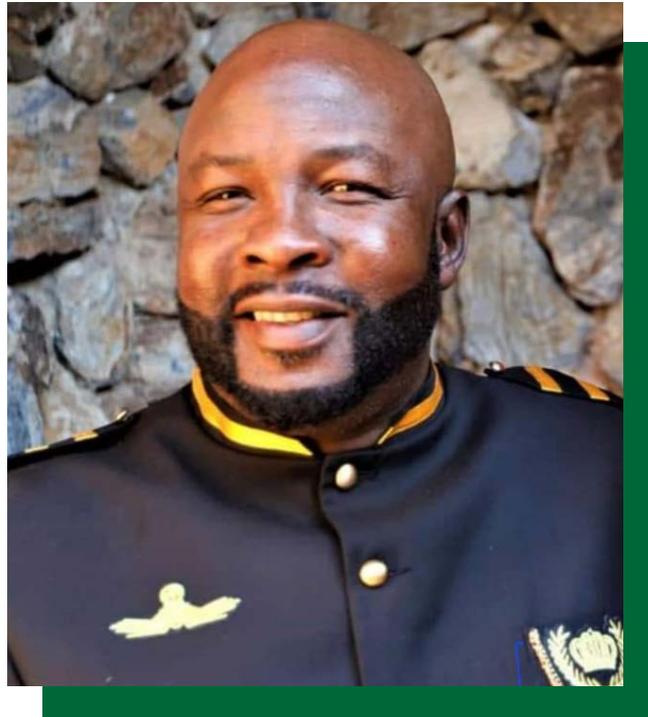

Our method starts with a thorough risk assessment, where we analyze potential vulnerabilities and work closely with clients to design a security plan that addresses their specific needs. By leveraging advanced surveillance systems, real-time monitoring, and rapid response capabilities, we not only safeguard against immediate threats but also anticipate potential risks.

We prioritize ongoing training for our security personnel to ensure they are equipped with the latest skills and tactics needed to handle dynamic security situations. From routine patrols to specialized incident response, every member of our team operates with the utmost professionalism, integrity, and vigilance.

In a world where security needs are constantly evolving, our commitment remains steadfast: to provide reliable, innovative, and adaptable security solutions that give our clients peace of mind. With Atforce Security Services, you're not just getting a security provider; you're partnering with a team dedicated to protecting what matters most to you.

STATEMENT FROM THE CO-FOUNDER

AT Force Security Services was founded in September 2017 by Mr. Sello Johannes Moshimane. He was later joined by Mr. Thabo Khetso who is the Director in the business

The drive to establish the entity was to be a focused company that seeks to forge new partnerships between safety enterprises, corporate businesses and communities it operates in.

Our Motto is to “Protect & Prevent” therefore we are committed to providing high quality protection services to a variety of industries, using state of the art technologies that are ran and managed by our skilled personnel within the company.

In order to reduce the crime rate within the communities of the Southern and Northern Gauteng, we have built strong relationships with Safety Stakeholders such as the South African Police Services (SAPS), Community Policing Forum (CPF), local businesses and communities where we provide a service.

This dynamic approach, elevates the security services to another level and it also provides skills to the underprivileged, maximizes job creation and empowers the youth.

Our end goal is to exceed our client’s expectations and requirements by following ethical business practices, being assertive, professional and consistent.

UNIFORM PARADE

COMMERCIAL SECURITY

With the large amount of traffic passing in and out of commercial office parks security controls become extremely essential. Access control and goods in transit are key areas where AT FORCE has best in class practices to alleviate risk. Highly visible guards patrol the buildings and entrances to spot criminal activities. This ensures that the access control is fully operational and also biometrics/clocking systems are put in place to reinforce the customers safety on site.

RESIDENTIAL SECURITY

The residential security officers are responsible for the safety of the your home. They are usually employed in apartments, center for the elderly and other residential areas.

RETAIL SECURITY

Ensuring that your shoppers feel safe and protected when entering your shopping centre or mall is essential, and as such our retail guarding solutions are designed to protect the shoppers and deter criminals. Uniformed guards are placed in the centre/mall for visibility to the customers/clientele so that they can be easily identifiable for any emergencies.

RELOCATIONS

AT FORCE security services has gained a vast experience over the years working under the wing of their subsidiary company Base Five Guard Security Services, which has been conducting relocations in the different communities around Gauteng. When conducting relocations, multiple matters are taken into consideration ie. Level of risk to personal safety, transportation/removal of possessions, cost and ensuring the relocated beneficiary settles safely.

AT FORCE WATCH

In an emergency, or in the need for reaction or assistance, AT FORCE watch will always be there to provide efficient and effective armed response services. AT FORCE watch 24 hour monitoring centers, professional personnel, response vehicles and patrol services are just a call away. AT FORCE watch provides services to all sectors of security services.

TOWER

AT FORCE security tower is one of the most powerful tool that enhance our security visibility. These towers are mainly used by our security officers to protect and to get an extended view of the site. They have been successfully assisting the officers in combating criminal activities in the area. The security officers that are placed on the towers are normally equipped with a (2 way radio systems) and a set of binoculars to locate suspicious activities at a distance.

MINING SECURITY

AT FORCE understands the unique sets of risks and potential dangers that the mining industry presents. Each mining site is unique and therefore requires a customized solution with the appropriate preventative steps and measures to ensure that the potential area of exposure and risk is minimized and effectively managed.

EVENT MANAGEMENT

AT FORCE is an excellent choice for special events, conferences, conventions, private parties, charity events, business gatherings, red-carpet events and black-tie affairs. We coordinate sophisticated security operations for well-known arenas, amphitheaters, stadiums, major concert tours, high-level red carpet events, 5 star hotels, casinos, racetracks and political gatherings.

INDUSTRIAL GUARDING

Industrial areas and warehouses are open to breaches of security through shrinkage and theft due to their open design, ease of access and the amount of people moving within the area. Our security guards at AT FORCE will protect your unique needs. When it comes to protecting your industrial premises or warehouse.

COMMUNICATION TRAINING

Our officers are trained to have the best communication skills and also to utilize the phonetic alphabetic system.

They are trained to use the new Global System For Mobile Communications (GSM) communication technology radios and base station. We also made sure that they undergo basic communication training that will enable them to communicate with our client base.

We also offer our Senior Supervisors cell phones to enable them to communicate efficiently with our clients when needed.

AT FORCE SECURITY TRAINING

AT FORCE Security Training is aimed at educating our security officers to enable to represent our client and protect their private property and their business.

Our officers undergo rigorous training twice a year to enable them to perform at their best in the work place and also give our clients service beyond expectation.

WHY DOES AT FORCE OFFER BASIC FIRST AID TRAINING AND FIRE FIGHTING TRAINING COURSES?

The basic First Aid and Fire Fighting training courses offered to our security officers is part of the skills development programme.

There are many sites in the security sector that requires basic First Aid training, this enables our security officers to deal with emergency situations. Our security officers are also trained in basic Fire Fighting which includes managing fire and hazardous material in an event of fire outbreak.

It is very important that AT FORCE officers undergo intensive training courses at all times so as to assist our clients in terms of life threatening incidences.

CCTV MONITORING SYSTEM

CCTV Monitoring System Operators in a private security industry play an important role as they provide protection against unforeseen threats and risks.
